Balance Transfer

Do you ever receive solicitations for 0% interest credit cards? Most charge you 3% of the balance being transferred to that card. At FME, we pay you 1% of the balance transferred onto your FME VISA card. For a \$5,000 balance transfer to an FME VISA card, that results in an immediate savings of \$200 to you. Instead of paying \$150, you will receive \$50. That's the credit union difference! In this case, it's better to receive than give! Close out your big bank credit card today and begin realizing the savings associated with your FME VISA account today.
